

The Community Foundation for Northeast Florida is the steward for all Donor Funds. Our Board of Trustees has the ultimate fiduciary responsibility and entrusts the Investment Committee with ensuring that all assets invested are consistent with the policies and objectives of the Foundation. This Committee works closely with The Community Foundation's investment advisors and staff to recommend policy, develop and implement strategy, review and evaluate investment results, and continually monitor The Community Foundation's investment program.

Depending on your grantmaking time horizon and asset size, you may select up to three investment options for your Fund.

### Our Investment Philosophy

We invest our assets so that grants can be made to address current community needs, and to preserve and enhance assets available for future generation grantmaking. The Foundation believes the likelihood of achieving these goals is enhanced when we:

- » Establish a strategic asset allocation that is expected to achieve an investment pool's investment objective while maximizing return for the level of risk assumed;
- » Avoid market-timing;
- » Appropriately diversify by asset class and strategy as this increases the likelihood of achieving return objectives under different economic and market conditions;
- » Establish highly disciplined rebalancing strategies between asset classes, with marginal tactical adjustments based on severe market conditions; and
- » Apply this approach uniquely based on the nature and level of each investment pool's investment objective, acceptable levels of risk, and projected liquidity needs.

### Our Spending Philosophy

The Foundation's spending policy for endowed funds is designed to provide a steady flow of funds available for grantmaking, while keeping pace with inflation. Currently, The Community Foundation's spending policy provides for a 5% annual distribution, based on a trailing twenty-quarter average of the fair market value of endowed fund assets as of September 30 of the prior year.

### Our Investment Objective for Endowed Funds

The Foundation has set its long-term investment objective at 5% plus CPI (inflation). While the Foundation does not expect that in every year this will necessarily be achieved, Investment Committee members and Staff believe that this investment objective can be achieved over the long-term while assuming acceptable risk levels commensurate with market volatility.

### Our Investment Advisor

The Foundation partners with Crewcial Partners, LLC (formerly known as Colonial Consulting), an independent investment advisory firm serving U.S. not-for-profits. Crewcial Partners advises our Investment Committee and makes recommendations with respect to investment strategy, asset allocation, and manager selection for the TCF Long-Term, Social Impact, and Intermediate pools. Crewcial Partners has a fiduciary obligation to the Foundation with a goal of increasing the value of our portfolios, is independent of the managers they recommend, and has no other lines of business.
