

The TCF Long-Term Pool seeks long-term (10+ years) capital appreciation sufficient to preserve and enhance real, inflation-adjusted grantmaking power. Specifically, the return objective of this pool is CPI (inflation) + 5% (the Foundation's annual distribution rate). This pool is constructed to reduce public market volatility through diversification and enhance returns through private investments.

The Foundation maintains a disciplined process, regardless of market fluctuations, to ensure the long-term viability of its invested assets. This approach has proven prudent and sound over time.

TCF LONG-TERM POOL FACTS

Eligible fund types	All Endowed funds Non-endowed funds of \$100,000+	Investment Strategy: <ul style="list-style-type: none"> » Construct a well-diversified portfolio able to achieve its return objective during a variety of economic and market conditions. » Allocate majority of the portfolio to asset classes with high long-term returns (equity). » Allocate some portion of the portfolio to a diversified mix of private equity and hedge funds to provide strong absolute returns with less correlation to the public markets. » Avoid attempts to predict short-term market behavior with market timing strategies. » Invest with world class managers that balance risk, return, and liquidity. » Manage costs, incurring only those that are appropriate and reasonable in relation to the invested asset.
Investment time horizon	7+ Years	
Strategic asset allocation	 <ul style="list-style-type: none"> ■ US Equity ■ Non-US Equity ■ Global Equity ■ Private Equity ■ Hedge Funds ■ Fixed Income
